

I am commenting on Sinclair's misuse of the public airwaves to force stations to air a political message. My understanding is that the public airwaves should be used for the good of the public and not for blatant political statements. I am referring to the negative piece on John Kerry that Sinclair is promoting.

We certainly need to work on the process whereby licenses are granted if this kind of thing is allowed.

Please check this out and help keep FCC issues fair. Thanks, Karen Moore
